

# NEXPLORE INNOVATION PLATFORM

**A tool for the collaborative  
development of Innovation  
projects**

# A tool for the collaborative development of Innovation projects, from the idea to the global scale in the organization.

Turn your innovation into real business opportunities through smart decisions and the activation of new processes within your organization.

## Ecosystem

SAAS platform that allows you to develop and manage **the entire life-cycle of the innovation process** from start to finish all your Innovation projects globally and in a collaborative way.

## Impact

**Measure the impact** and control your innovation portfolio. It will help to improve the quality of the projects and the **efficiency of the innovation model**.

## Visibility

Measure the effort, monitor the return on investment and have visibility of the problems to be solved of each innovation process with the **Innovation Scocard**.

## Flexibility

**It visualizes all processes by frames and by innovation areas** to have a greater impact on each project.

Discover and implement new innovation processes in your organization, **involving internal know-how and experience with partners**. It has the support of universities, technology partners, start-ups and innovation centers to build innovative projects.

**Centralizes and manages communication** and material related to innovation projects. Scales them to the rest of the organization globally. Engage with the Community and build your network.

# Subscription plans

We offer different plans for the implementation of the platform, taking into account the degree of maturity of innovation in your organization.

## 1. Basecamp

Challenge your employees and evaluate and select the best ideas across the platform globally.

Intra-preneurship · Innovation Scorecard

## 2. Expedition

Pilot your innovation project in a real environment and scale it globally. Collaborate with partners.

Open Innovation · Accelerator

## 3. Peak

Collaborate with partners and create your own startup ecosystem, with portfolio analysis.

Startup Scouting · Corporate co-innovation

## What is included?

Basecamp

Expedition

Peak

Launching challenges, globally or by business line.  
Collection of ideas and community participation.

Evaluation by experts at different stages.
